REPLACEMENT SHEET

FIG 2 - Incoming Linkset/DPC Screening

D1   D2   E+   E2

Internal D1 network

PC=a, NID=1

Routing Table
for NID = 1

Internal D2 Network

PC=b, NID=2

Routing Table
for NID = 2

Internal E+ Network

PC=c, NID=3

Routing Table
for NID = 3

Internal E2 Network

PC=d, NID=4

Routing Table
for NID = 4

All external NI are identical,
the indicated paths symbolically
represent all linksets between
the other networks and the SP

Virtual network tunnels
exist between

D1-D2
D1-E+
D1-E2
D2-E+

and are symbolically
represented by the
connection of the
routing tables
